another Starry Night

a two day oil paint and stitch extravaganza

with Claire Passmore

In this two-day workshop you will learn an easy way to use oil paint sticks on fabric to create a rich and colourful background for a unique piece of stitched art. Claire will show you how to add intense amounts of machine and hand stitch to create an effect similar to the brush strokes used by Vincent van Gogh in his original painting, *The Starry Night*.

Claire will also show you how to finish your work and present it as a piece of finished art to hang on your wall.
